The precision of the Jubilee Calendar is amazing. Jesus came to Earth and died for our sins at the predicted moment. He died in the middle of the 70th week (A.D. 30) and confirmed God's covenant of salvation for man! A correct understanding of the calendar is important because God reckons a number of prophetic time-periods in day/year units. Jesus' death in the middle of the 70th week did not terminate the Jubilee Calendar. Daniel 9:24 specifies exactly 70 weeks, not 69 1/2 weeks. This fact is also confirmed since the 2,300 day prophecy of Daniel 8:14 extends past Christ's death and the prophecy of 1,260 day/years (Revelation 12:6) requires the continuation of the Jubilee Calendar. Daniel 7:25; 9:24-27; Exodus 12; Leviticus 25,26; Romans 5:6; Galatians 4:4

The First Jubilee Cycle

1437 B.C. — 40 Years Wilderness — ✸ Failure at Kadesh Barnea

70 Jubilee Weeks = 490 Solar Years = 10 Jubilee Cycles

1437 B.C. Calendar Begins

God's Jubilee Calendar is a Spring-to-Spring calendar. He uses it to determine how prophetic time is reckoned. While the calendar operates, God reckons time in day/year units. After the calendar terminates, God reckons prophetic time in literal units. The calendar appears to end with 70 cycles due to increasing units of measurement. In the Old Testament, God tested His people with increasing units: 40 days, 70 Sabbaths and 70 weeks. If the duration of sin is 70 centuries, the missing unit of measurment would be 70 Jubilee cycles.

Bible Proof
A Cycle = 49 Solar Years

The Babylonian captivity (605-536 B.C.) lasted seventy years because Israel violated 70 Sabbath years. (Leviticus 26:31-35; 2 Chronicles 36:21,22) God reckoned the apostacy of Judah and Israel to be 430 years. (Ezekiel 4:5,6) The number of Sabbath years in 430 years is 70! This proves mathematically a Jubilee cycle has to be a repetition of "seven sevens" which is 49 years.
God established the annual feast of Pentecost as an annual "shadow" of the Jubilee Calendar. The 50th day always fell on the first day of the week.

Cycle	Years	Sabbaticals
1	49	8
2	49	8
3	49	8
4	49	8
5	49	8
6	49	8
7	49	8
8	49	8
9	38	6
Total	430	70

A Jubilee week always starts with Sunday and ends with Sabbath. Therefore, seven days are not necessarily a week because "a Jubilee week" always begins with the first day of the week. The 2,300 days which begin concurrently with the 70 weeks, are called "days" because they are not complete weeks.
2,300 Days = 328 Weeks + 5 Days
